

SAFE LIFTING OPERATIONS - THE ROLE "OPERATIONAL RESPONSIBLE LIFTING OPERATIONS" LEARNING FROM INCIDENTS IN EQUINOR SYNERGI 1657661 AND 1749676 (and more)

The Equinor SSU Learning Panel

SAFE LIFTING OPERATIONS - THE ROLE "OPERATIONAL RESPONSIBLE LIFTING OPERATIONS"
LEARNING FROM INCIDENTS IN EQUINOR
SYNERGI 1657661 AND 1749676 (and more)

WHAT THIS IS ABOUT

Based on analyses of incidents related to lifting operations in Equinor, the professional discipline within crane & lift centrally has concluded that the role «Operational Responsible Lifting Operations» needs to be strengthened by ensuring good frame conditions for execution.

The objective of this learning initiative is to ensure that the role "Operational Responsible Lifting Operations" is filled with personnel that has sufficient time, competence and authority.

WHAT TO DO

- Review this material (including the film page 3) and consider the relevance for your Business Area.
- Reflect on the material - including the proposed actions in page 4 – and decide implementation of relevant actions (if needed – supplement with your own actions).
- Document the selected actions in Synergi as described in page 5.
