

# Always Safe

## Operative personnel

Choose one of the jobs which is planned for the coming week. Do a pre job conversation where you pick the most relevant Life-Saving Rule and go through each of the key points for the rule.

- What risks are relevant for this job?
- What can make it difficult to follow the points for this rule when you do the work?
- How can you manage that?

Summarise and write an observation card:

- What did you learn? How can you follow up this learning?

# Always Safe

## Operative leaders

Choose one of the jobs which is planned for the coming week. Have a safety conversation with the work team in the field focusing on Life-Saving Rules.

- Which Life-Saving Rule is most relevant for this job?

Review the key points for this rule together and ask the team:

- What can make it difficult to follow the points for this rule when you do the work?
- How can you manage that?

Summarise and write an observation card:

- What did you learn? How can you follow up this learning?

### Life-Saving Rules

Bypassing safety controls

Confined space

Driving

Energy isolation

Hot work

Line of fire

Safe mechanical lifting

Work authorisation

Work at height
